- 
- A yellow dashed line is located in the bottom right corner of the slide, consisting of several short, curved segments.

Overview of project

INTRODUCTION

PURPOSE

Introduction

Easy to use

User friendly

Multiplatform

Purpose

Constraints

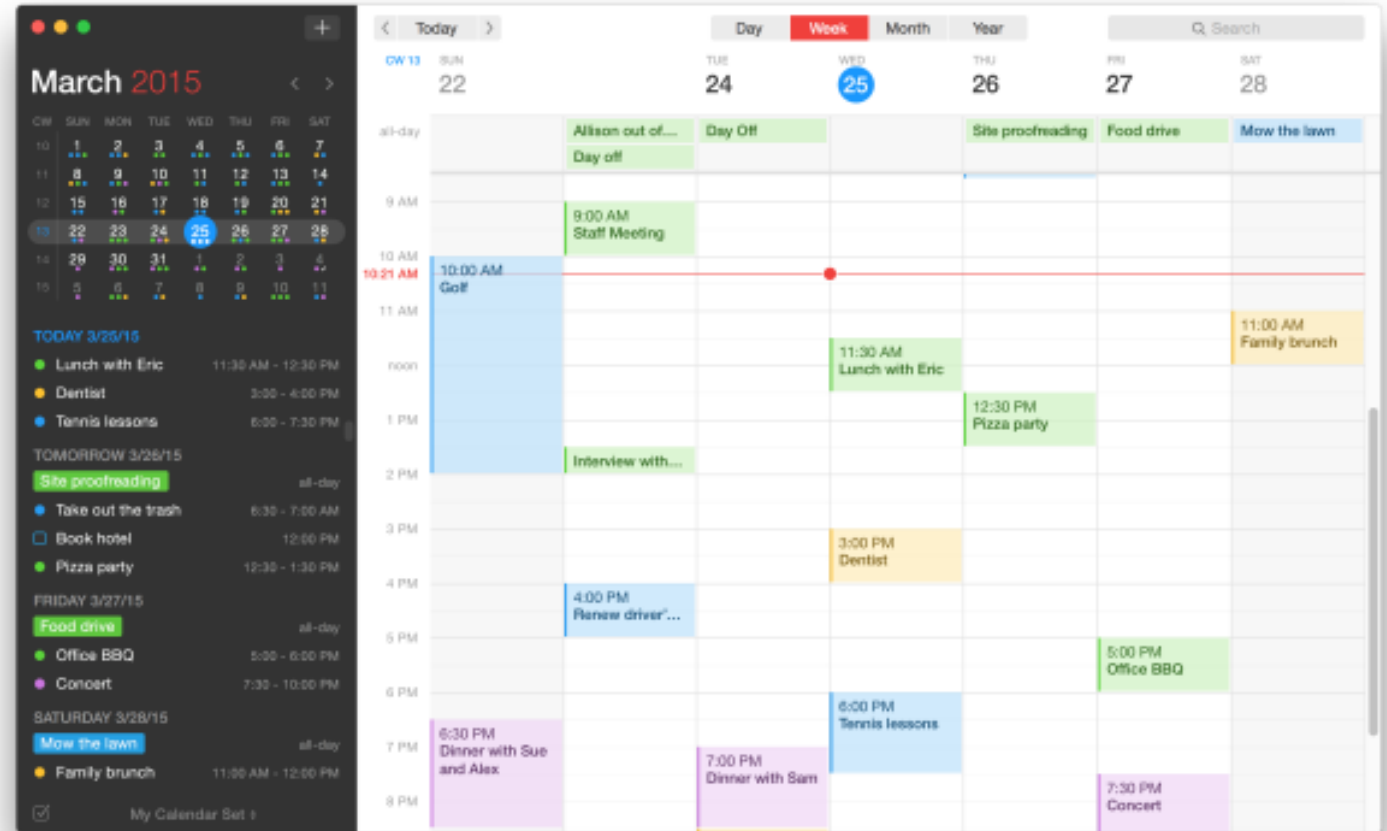

- The Calendar 317 design used Model-view-controller pattern. It may increase complexity and lead to redundant updates for user actions. For example, event class may cause diagram higher coupling.

Main functions

- Calendar
- To-do List
- Plug-in Function

Calendar

- Daily View
- Weekly View
- Monthly View

To-do List

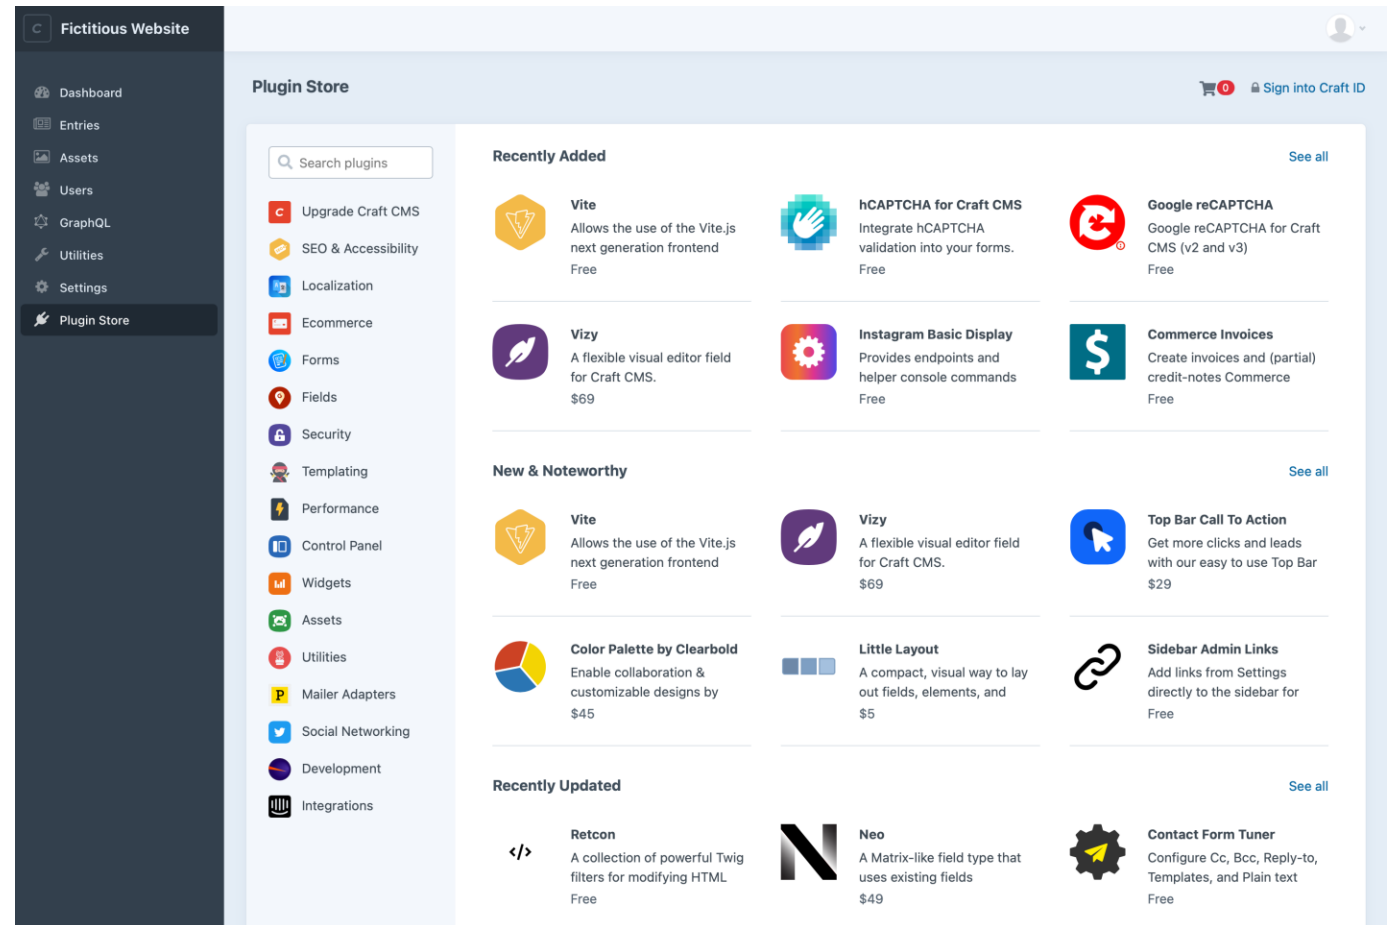

- Sort by Time
- Sort by Priority
- Status

To-Do List

All Tasks Sort By Time Sort By Priority Due Dates + Add view					Filter Sort 🔍 ...		New ▾
↑ Name ▾ Status ▾ Assign ▾ + Add filter							
Aa Name	Status	Assign	Priority	Due Date			
Daily triage of redesign feedback	Completed		High 🔥	March 29, 2022			
Develop messaging & positioning	Next Up		High 🔥	April 5, 2022			
Launch new home page	In Progress		Medium	March 30, 2022			
Reply email	Next Up		Low	April 3, 2022			
Research campaign measurement tools	Next Up		Medium	April 7, 2022			
Review announcement blog	Next Up		Medium	April 2, 2022			
+ New							
					COUNT 6		

Plug-in Function

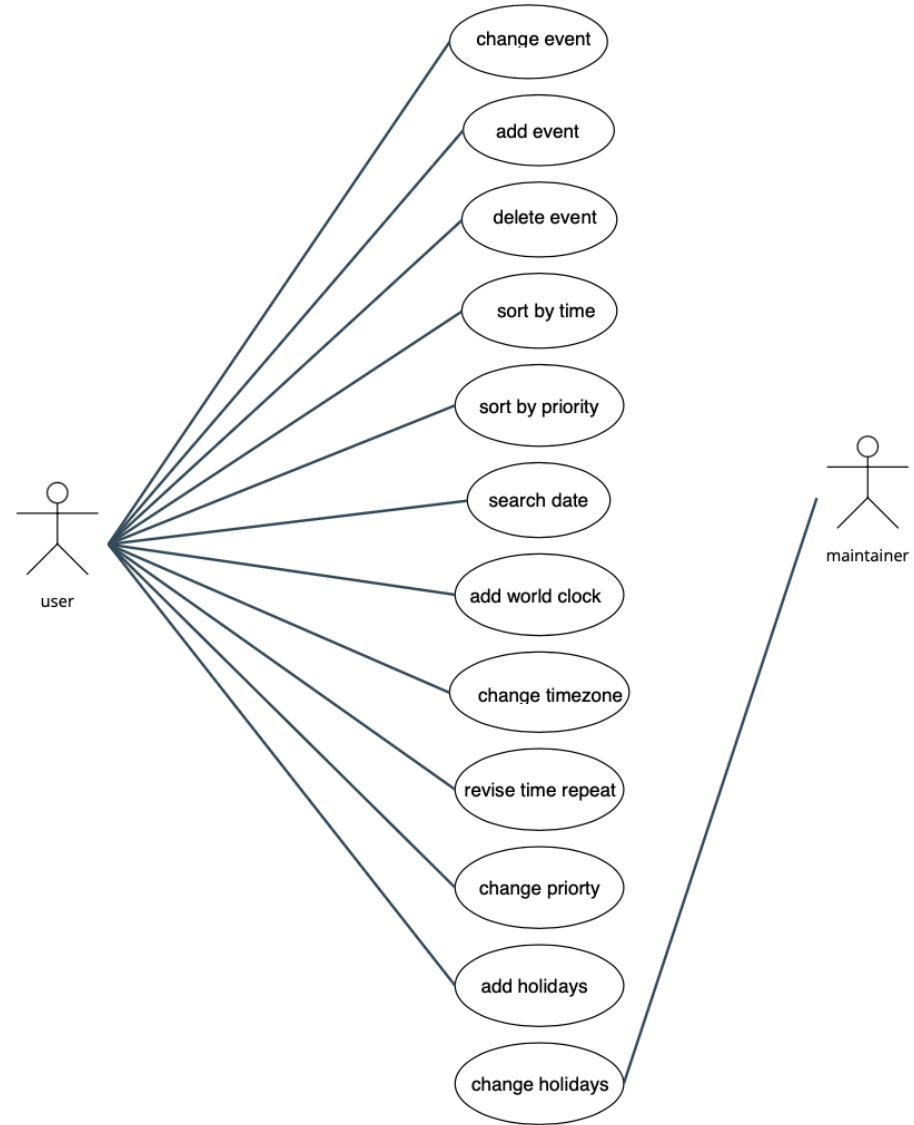

- World Clock
- Quick Note
- Journal
- Travel Planner

UML models

- Use case
- Class diagram
- Activity diagram (Delete event, Add Event)
- Sequence diagram (Delete event, Add Event, Change Event, Sort Event)

Use case

Use case

Use Case ID	UC-02
Use Case Name	Add Event
Actors	Users
Use Case Overview	It allows the user to add Event to Calendar Cell.
Trigger	The user wants to add an event to Calendar317.
Precondition	None
Normal Flow	Case 1: Add Event in To-Do list <ol style="list-style-type: none">1. The use case begins when the user presses the “Add Event” button.2. An empty event is created.3. User enters an event name.4. (Change Priority) UC-08 is performed (optional).5. User selects an event starting time.6. User selects an event due date7. User enters a detailed description of events, e.g., location of event and participants of event. Users may choose to skip this step.8. User presses “save” button to save event.9. Event name, starting time, due date, and optional description such as priority, location and participant are recorded and displayed on the To-Do list.10.The Use case ends successfully.

	Case 2: Add Event in Calendar <ol style="list-style-type: none">1. The use case begins when user right clicks a Calendar Cell.2. The calendar cell displays a list of alternatives that are available for the user to choose. The user selects “Add Event”3. An empty event is created and shown in the calendar cell that the user selects.4. User enters an event name.5. (Change Priority) UC-08 is performed (optional).6. User selects an event starting time.7. User selects an event due date8. User enters a detailed description of events, e.g., location of event and participants of event. Users may choose to skip this step.9. User presses “save” button to save event.10.Event name, starting time, due date, and optional description such as priority, location and participant are recorded and displayed on the To-Do list.11.The Use case ends successfully.
Alternative Flow	A 1: Missing due date In both case 1 and case 2, the user is required to select a due date. If due date is not given by user, then <ol style="list-style-type: none">1. The use case ends with a failure condition, user will have to redo all the step.
Use Case Associations	UC-05
Priority	High

Use case

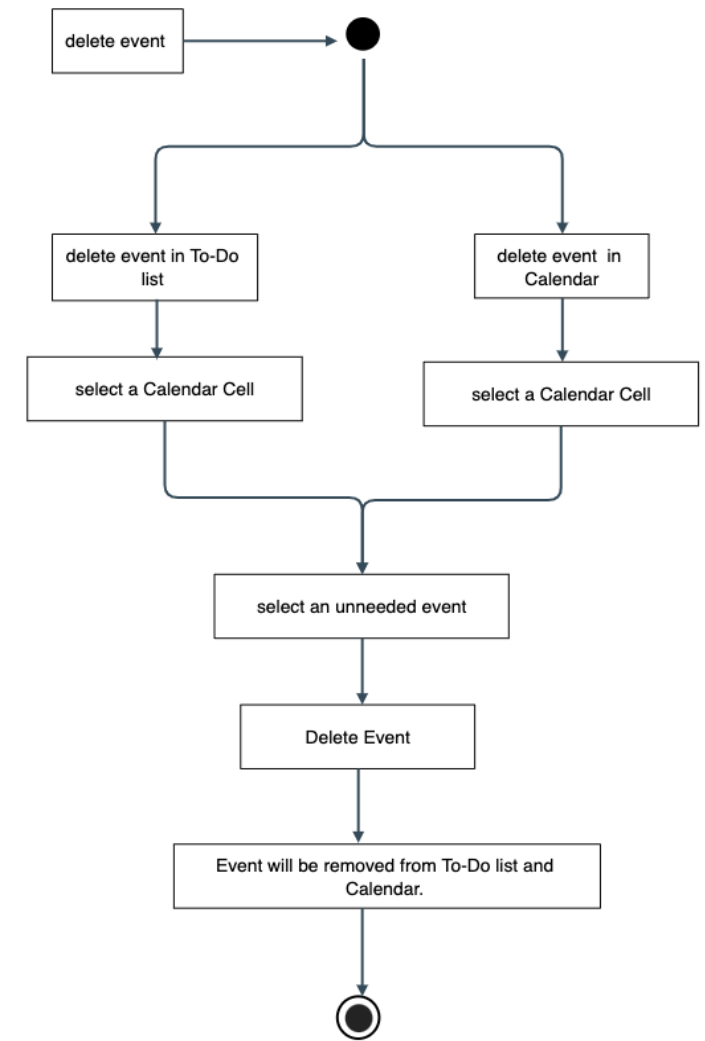

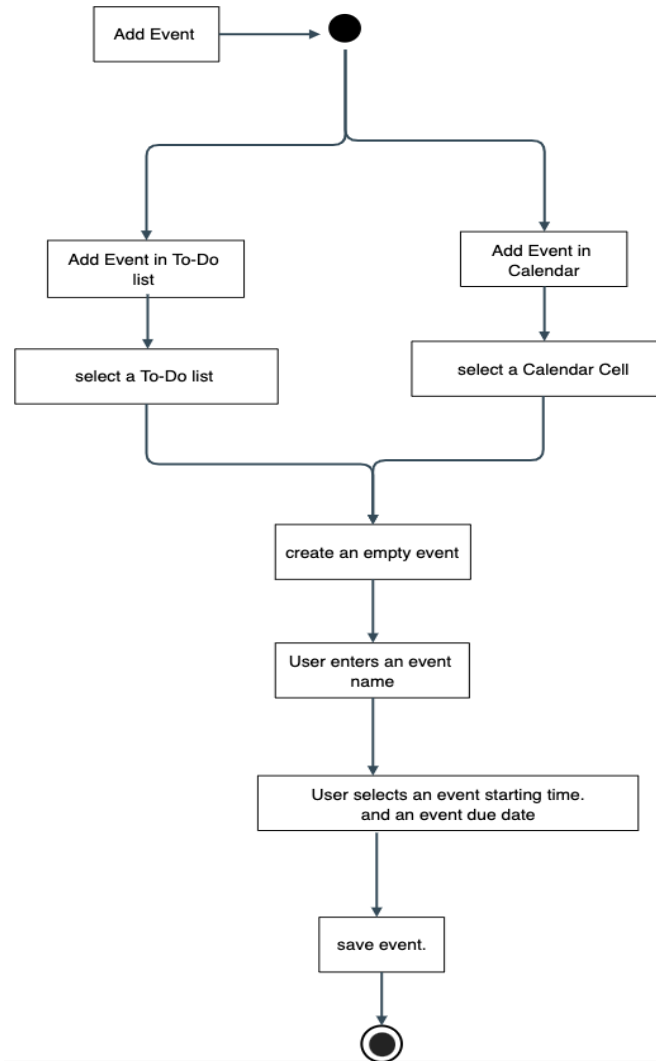

Use Case ID	UC-06
Use Case Name	Sort by priority
Actors	Users
Use Case Overview	It allows the user to organize their task by priority.
Trigger	The user wants to sort their events by priority.
Precondition	<ol style="list-style-type: none">1. At least two events are added before using sort function
Normal Flow	<ol style="list-style-type: none">1. The use case begins when the user selects To-do List.2. The user clicks “Sort” button.3. The To-do list displays two options available. The user selects “priority”.4. Events are sorted by priority.5. The use case ends successfully.
Use Case Associations	UC-07
Priority	High

The image is a composite of several grayscale photographs of hands. On the left, there are close-up shots of hands clapping. On the right, there are more open hands, some reaching upwards. The background is a light, slightly textured gray. The text "Thank you for listening." is centered in a black serif font.

Thank you for listening.
